This Compliance document confirms the compliance with the listed standard(s) on a voluntary basis. It refers only to the sample submitted for testing and on its technical documentation and does not certify the quality or safety of the serial products. All products that are labelled as being compliant with any ANSI/ASSE Z359 standard shall undergo verification testing in accordance with this standard at an interval not greater than two years or five years for products manufactured under a quality management program that is registered to ISO 9001.
